Other Observations:

- Last mionitoring was conducted on February 18, 2021 recommending that the project may not secure discharge permit since no potential wastewater discharge was observed.
- The project was operational during the conduct of inspection. But some parts was damaged due to typhoon.
- Backwashing is conducted only when necessary. It was noted by the proponent that after the typhoon, less volume of water was captured. Less water volume is processed.

Remarks and Recommendation:

Send a communication to the Local Government Unit of Padre Burgos, Southern Leyte to:

- Construct/put up an appropriate wastewater treatment facility for the management of wastewater coming from the backwashing activity.
- Secure a Wastewater Discharge Permit for the wastewater discharge coming from the backwashing activity.
- Submit 2nd Semester Compliance Monitoring Report (CMR) online through online.emb.gov.ph/cmr
- Secure Accreditation as Pollution Control Officer (PCO)
