Other Observations: <ul style="list-style-type: none"> ➤ Facility was not operating during the time of inspection due to non-issuance of extraction permit from the Provincial LGU since May 2020 ➤ Emission of gases from jaw crusher engine is minimal as the plant uses AC power supply generation and dusts generated from the operation was mitigated with the application of water sprinklers ➤ No reported incident of air pollution from Barangay and Municipal LGUs.
Remarks and Recommendation: <ul style="list-style-type: none"> ➤ The proponent have regularly secured the appropriate permits required
