

Republic of the Philippines
Department of Environment and Natural Resources
ENVIRONMENTAL MANAGEMENT BUREAU
Region VIII
DENR Compound, Jones Street, Barangay 2, Tacloban City
Tel No: (053) 832-10-88

Permit No: PTO-OL-R08-2021-04244-TR
Application Type: Renewal

Date Issued: 16 Jun 2021
Date Expiration: 16 Sep 2021

PERMIT TO OPERATE
Air Pollution Source and Control Installations

Pursuant to Part IV, Rule XIX of the Rules and Regulations of R.A. 8749, authority is hereby granted to:

Philippine Phosphate Fertilizer Corporation
(Philippine Phosphate Fertilizer Corporation)

Lide, Libertad, Isabel, Leyte

subject to the following terms and conditions:

TERMS AND CONDITIONS

1. This Permit is issued for the permittee to operate the **Air Pollution Source Installations (APSI)** and **Air Pollution Control Devices (APCD)** in the **GRANULATION PLANT Line 2** at the permittee's establishment identified on this Permit. *(Refer to attached Annex at page 3)*
2. Any application for renewal of this Permit shall be filed **not less than thirty (30) days** before the expiry date indicated on the previous page of the Permit.
3. This Permit shall be posted in a conspicuous location of the premises, and shall be adequately framed or otherwise protected against damage.
4. Without limiting the generality of the previous condition, the permittee shall ensure that the emissions from the permitted installations or processes comply with:
 - the National Emission Standards for Source Specific Air Pollutants as specified in Rule XXV of the IRRs of RA 8749;
 - the National Ambient Air Quality Standards for Source Specific Air Pollutants from Industrial Sources/Operations as specified in Rule XXVI of the IRRs of 8749; and
 - the emission limits specified in Permit condition No.9.
5. The permittee shall submit Self-Monitoring Reports to the Bureau in accordance with DENR Administrative Order No. 27 (Series of 2003) and any written instructions by the Bureau at three-monthly intervals, commencing with submission of the **first Report** on or before **July 15, 2021**. *(Online submission at <https://client.emb.gov.ph/smr>)*
6. The permittee shall at all times have an appointed or designated Pollution Control Officer (PCO) pursuant to DAO 2014-02.
7. The permittee shall at all times allow authorized or accredited officers of the Department or the Bureau entry to the establishment and access to any part of the establishment to conduct inspections, gather information, test emissions or take samples.
8. The permittee shall not make or allow any alterations or modifications to operations, activities, installations, processes, plant or equipment at the establishment that might substantially change the nature or quantity of the associated emissions without obtaining the approval of the Bureau, including the obtaining of any necessary Permit to Operate.
9. The permittee shall ensure that the concentrations of the emissions from the **Granulation Plant Stack** serving the **Granulation Plant** shall not exceed the following limits:
 - **Particulate Matter (PM): 150 milligrams per normal cubic meter,**
 - **Phosphorous Pentoxide P(205): 200 milligrams per normal cubic meter.**
10. The permittee shall operate the **Granulation Plant Line 2** at a capacity of **not more than 90%** only (based on the operating load capacity during the previous emission test).
11. The permittee shall provide emission sampling ports, sampling platforms and safe access to those sampling ports and platforms for the **Granulation Plant Stack** serving the **Granulation Plant**, in accordance with the Bureau requirements.
12. The testing required by the previous condition shall be repeated and Emission Test Reports shall be submitted to the Bureau at **twice per year intervals**. The results of this testing shall be reported in the Self-Monitoring Reports submitted in accordance with Permit Condition No.5.
13. The permittee shall sample and analyze emissions of **PM, P205** from the **Granulation Plant Stack** in accordance with the methods specified in the IRR of RA 8749 and including the submission of the **proposed test plan** to the Bureau at least **two (2) weeks** prior to the date of conduct of the emission test and shall submit an Emission Test Report on the results of this emission testing to the Bureau after **thirty (30) days** after the conduct of emission test. During the sampling of the emissions, the air pollution source shall be operated at an output of **90% or greater than the permitted capacity**. The following data on operating conditions shall be collected during the sampling period, and included in the Emission Test Report; (a) **the actual output of the DORE Plant,** (b) **stack or exhaust dimensions**

(height and inside diameter); (c) average annual operating hours; and (d) the rate of fuel consumption.

14. The permittee shall report in writing to the Bureau any malfunction, accident, breakdown, leak, spill or other abnormal or unexpected event which results in emissions to atmosphere that do not comply with relevant Permit Conditions, emissions standards or ambient air quality standards, or in any abnormal or unexpected releases of air pollutants. The report shall indicate the nature of the incident or event, its impact on emissions or releases, remedy any air pollution problems that may have occurred, and minimize the probability of a reoccurrence of the event or the release.
